Handwashing

Simple hand washing steps:
1. Turn on water.
2. Wet hands with water.
3. Apply liquid soap.
4. Wash hands, rubbing hands out of running water at least 20 seconds. Rub top and inside of hands, under nails and between fingers.
5. Rinse hands under running water with fingers pointing towards the drain.
6. Dry hands using a clean, disposable paper towel or an air dry blower.
7. Turn off water using the paper towel.
8. Throw paper towel away into a plastic lined, hands-free, covered trash receptacle.

Avoid recontamination:
1. At snack and lunch time, encourage children to wash hands and go directly to the table to avoid recontamination of hands.
2. Separate sinks for food preparation and hand washing are strongly suggested. If sinks are used for multiple purposes, they must be cleaned and disinfected after diapering/toileting handwashing and before food/meal related handwashing.

Hand Washing Song - (20 seconds-Sing two rounds)
(Sing to Row, Row, Row Your Boat)
Wash, wash, wash your hands, Play our handy game.
Rub and scrub and scrub and rub, Germs go down the drain.
